

BANKING, FINANCIAL SERVICES & INSURANCE

Bring a range of banking and insurance services to the customer's mobile phone. Put an end to endless wait times and tardy paper communications.

Be a bank or an insurer who is just a swipe away. Cut out intrusive calls and bad customer experiences, by bringing client-facing services to an SMS platform. Use [Textlocal SMS](#) to offer a range of instant, actionable services—from bank statements, fund transfers to trading updates. Allow customers to instantly reach out for information via SMS. Be the invisible but always available personal banker using Textlocal's customized SMS services.

Go Mobile

Send customers their bank statements, insurance-policy updates, loan approval status, credit card approvals, payment receipts and much more as [SMS attachments](#) with Textlocal. Save paper and save the customer a trip to the bank.

Transaction of Rs. 1,503.56 was made on ICICI debit card ending xx67 on 20-05-2015 / 17:20:24

Keep the customers informed

Improve productivity by saying goodbye to unread email campaigns or unnecessary calling. Send customers timely updates (e.g. linking Aadhaar) via Textlocal SMS, the most effective mobile customer engagement channel.

Send campaigns your customers love

Go beyond plain bulk SMS. With Textlocal, you can now fully customize your SMS campaigns in minutes using our easy and powerful user interface. Whether it is personalizing millions of bulk SMS, composing regional language texts, or staggering your sends in batches, it is all incredibly easy!

For the first time ever, Textlocal's granular click analytics give you insights into your campaign reach and effectiveness. Along with the right A/B tests, these analytics can now help you compose the right message and send it to the right audience at the right time.

Bank with an SMS

Allow customers to open accounts, add beneficiaries, and more when they text into your SMS long codes and short codes with predefined keywords, or via a simple missed call. Make your processes customer friendly with Textlocal's receive SMS functionality.

Promote new products and services

Promote new products and get clients to sign up for new services with SMS marketing campaigns. Insert a simple web URL link as 'call-to-action', measure client response and fine-tune your campaigns.

Monitor and control all communication

Create completely secure customized SMS templates that are locked down for sub-users with Textlocal enterprise-grade features. Monitor and keep track of usage for internal performance and regulatory audits.

Bring the broker to the phone

Act like a real-time broker to customers through automated SMS updates for everything from market moves and interest rate changes to fund NAVs. These can be every hour or every month, customized to client needs and transaction frequency.

Customer service on SMS

Make your customers feel well served by instantly sending information ranging from account balances to nearest branch locations when requested via SMS. Make the SMS a tool for customer service by making it a 2-way communication channel.

Instant customer feedback

Are your clients happy or unhappy? Do they think your service is exceptional or mediocre? Get instant feedback on customer experience and map bank performance by branch and region by sending Textlocal mobile-optimized surveys.

Get ahead with bespoke services

Need help on how to leverage Textlocal and improve your services? Our dedicated team helps tailor solutions for your business needs, whether it's setting up and managing campaigns or helping you integrate various backend systems.

We work with over 225,000 businesses
